

5.1.1 Percentage of students benefited by scholarships and freeships provided by the institution, Government and non-government bodies, industries, individuals, philanthropists during the last five years

HEI Response:

HEI has noted the DVV comments and rechecked the data. The revised data along with links to supporting documents is given below.

1. As per DVV input, data is substantiated, and we accept that the number of students availing scholarships cannot exceed EP 1.1

There is always a tentative number of scholarships sanctioned by the scholarship committee and the beneficiaries (the students availing the scholarship) is always within the sanctioned numbers.

Kindly note that the sanctioned beneficiaries were taken based on the previous academic year. However, the number of students benefitted were less than number of students enrolled.

The final number of students availing scholarship will vary upon the fulfilment of eligibility criteria, as mentioned in scholarship policy, already submitted and for ready access, the link is as below:

The justification for the year 2021-2022 data is given below:

The table below mentions the number of students 'enrolled' 'sanctioned' 'benefitted' for all 5 years:

	2019-20	2020-21	2021-22	2022-23	2023-24
Enrolled	9421	10197	11024	11591	12016
Sanctioned	5199	9986	11516	5629	5247
Benefitted students	5054	9455	10249	5336	4919

In the table 5.1.1 provided in SSR, instead of students 'benefitted', by mistake, we have provided 'sanctioned' number of students.

However, even in the year 2021-2022, the maximum number of enrolled students (as in above table) is 11024, sanctioned taken was 11516, and the students benefitted are 10249, hence benefitted numbers are lesser than enrolled number of students.

2. As per DVV input, HEI has provided the sanction letters and the list of beneficiaries for all the scholarship schemes for all the assessment years.

It's provided in all year as given below:
